FEMININE INTROSPECTION

Through the “Feminine introspection” collection I want to support you in connecting to and expressing your raw, naked, deepest self. The accessories are meant to be a token, a symbol of your inner journey, a constant reminder to always get back to yourself, to love, accept and be gentle to yourself, as well as a way to express your inner beauty and femininity. They are created using flowing lines and soft materials that express a part of the way I feel femininity.

A stylized, flowing signature logo consisting of the letters 'mf' in a cursive script. A long, horizontal line extends from the right side of the 'f' across the page.
