FASHION AND CRAFTS: PERPETUAL DIALOGUE

In a world who's values are more and more decided by exterior factors, Ma Ra Mi stands for authenticity.

We fuse fashion and traditional crafts together to capture a glimpse of the authentic look, a look that has both roots and wings, that has a strong connection to the care that crafts entail and the innovation of modern technologies.

We seek to provide a connection to one's authentic self with each design, in national crafts and values, the world and in one's unique views on femininity. The new collection continues the dialogue with ancestral hand-made techniques, natural fibers like silk and cotton and the touch of modernity, through tech fabrics, simple cuts and crystal embellished details.

The clothes only come to life when they reflect the woman's own empowerment!
